THE COMPANY

African Agency for Arid Resources Limited (Agar Ltd) is an award-winning Kenyan company dealing in natural resources from the Arid and Semi-Arid Lands of East Africa. We started as a commodities agency specializing in the trade of gum Arabic and resins such as Frankincense and Myrrh. Shortly after, we started creating value addition and distilling these resins into essential oils. Our product line now consists of over 10 essential oils, carrier oils, body butters, organic aloe-based cosmetics, and additional cosmetic products under Jua by Agar™ brand, now available in 4 countries. We express strong environmental and social impacts through our work in arid and semi-arid lands. By collecting and processing arid lands' resources such as Frankincense and Sweet Myrrh, we actively engage in income diversification and strengthening the livelihood of pastoralist communities while still raising awareness and advocate for conservation, biodiversity and sustainability. Agar Limited is also an international consultancy agency working with international NGOs, Governments and UN agencies on projects of land restoration, reforestation, bio-enterprises development, and income generation activities.

BEHIND THE JUA BY AGAR™ PRODUCTS

Jua by Agar™ started as the first line of essential oils made (almost) exclusively of raw materials picked and processed on the African continent. The oils in the line are certified organic by international certifying bodies (or in the process to be) and are predominantly made in Kenya, although we also have oils from Rwanda, Tanzania, Uganda, Madagascar and South Africa.

We farm our own Aloe (*A. Secundiflora*) and are setting up new plantations in arid lands empowering more communities and restoring degraded lands. We work with farmers (women's groups mostly) that have been empowered in formulating the organic products. We are certified for ethical-bio trade respecting concepts of access-benefits sharing, meaning our products are not only sustainable, but ethically sourced and produced as well. Our shea butter is cold pressed in Kenya under our own eyes, and so are all the carrier oils in our line. At Agar, we take quality seriously: We follow the entire value chains of our products and have Certificates of Analysis to certify the quality of the oils against minimum parameters. Furthermore, most of our oils are certified organic or in the process to be, meaning thorough inspections have been carried out to ensure the traceability of the biomasses, the absence of any contamination and that processing is done in ways to ensure the oils are 100% natural. We are also a member of IFEAT, the federation of essential oils producers, and adhere to all KEBS standards.

DISTRIBUTION AND WHITE LABELS

Jua by Agar™ is an international brand being distributed amongst the hospitality industry, e-commerce platforms, retailers, wellness establishments spas and other agents in Kenya, Uganda, South Sudan and Italy. We distribute the line to clients, re-sellers and end users at different price points on direct purchase. Purchases per liter offer bigger margin and flexible mark-up gaps compared to any other price listing we provide. Clients requesting the line under their own brand can use our white label option which has different terms for each product. The room amenity line, ideally for the hospitality industry and wellness establishments, is distributed in 50ml single use bottles, 200ml & 500ml refillable bottles and in bulk jerricans of 5 liters or 20 liters which are purposed for refilling. Essential oils and carrier oils are packaged in 15ml amber glass bottles and 100ml packaging respectively, but we stay flexible to cater for customer specification.

ESSENTIAL OILS

Essential Oils are concentrated volatile liquids obtained when a plant part or whole plant is distilled. They usually carry the scent of the plant and possess properties that make them useful across several industries such as aromatherapy, cosmetic care as well as alternative health solutions. The oils in the line are certified organic or in the process to be, and are processed by us (Frankincense, Sweet Myrrh) by our Kenyan partners (Cedarwood; Wild Basil; Leleshwa; Lippia; Lemon; Cypress Tea Tree, Lavender, Geranium, Rosemary, Lemongrass, Eucalyptus, and Peppermint, Clove Bud and Citronella).

Our oils are available for purchase individually in retail, wholesale, and bulk quantities.

EUCALYPTUS ESSENTIAL OIL

(Eucalyptus Globulus)

Eucalyptus essential oil is used to treat a variety of common diseases and conditions including nasal congestion, asthma, skin remedy and as a tick repellent. The oil is most known for helping respiratory functions and its therapeutic benefits on the skin, sore and painful muscles.

SHEA BUTTER (Nilotica)

(Vitellaria paradoxa)

Shea butter is a natural butter cold pressed from the nuts of the African shea tree.

The nilotica shea butter is a rare natural butter from a sub-species called Vitellaria nilotica found ONLY in the East African region.

The butter has Emollient, moisturizing, anti-inflammatory, anti-aging, and skin/ hair regenerating properties. It is effective for all skin and hair types including those of babies and people with sensitive skin. It can be used on its own, being mixed with other pure oils or as a cosmetic ingredient.

ALOE PRODUCTS

The “Jua by Agar™” aloe line has been formulated to be entirely organic: The line consists of Body Cream, Body Cleanser, Liquid Handwash, Hair Conditioner and Hair Shampoo sold in bottles or in liters. “Jua by Agar™” was launched to satisfy the increasing demand for quality room amenities for hotels and resorts in Kenya and beyond. It is a line of cosmetics using aloe as a base and scented with pure essential oils from Kenya and East Africa.

This line is distributed in both bottles and liters to hospitality and wellness establishments looking for quality amenities with a story, the story of artisanal products made in collaboration with pastoralist women from arid lands, aiming to create empowerment and livelihood diversification. To sustain production and broaden our impact, we have set up 100- acre commercial aloe plantation -all on community owned land and the project is being carried out by local organized, well trained, and equipped groups.

Jua by Agar™ has now made available personalization of both branding and scent on all products at no additional cost when MoQs are met. The fun blends from quality essential oils being;

Northern Breeze

Frankincense, rosemary, peppermint & lavender

Herbs Power

Wild basil, rosemary, peppermint & sage

TuttiFrutti

Strawberry, orange, lemon & peppermint

DeepWood

Sweet myrrh, cypress, camphor & frankincense

Furthermore, we have partnered with a reputable Kenyan company to offer our customers customized wall mounting services, with wall mounts available in stainless steel or wood to accommodate any sized bottles from our product line.

CARRIER OILS AND MASSAGE OIL BLENDS

Carrier oils are oils with little to no scents and are obtained through cold pressing or maceration of either seeds, kernels, nuts or even vegetables. These oils are called carrier oils because they “carry” essential oils into the skin as they are too harsh on their own. They are also commonly referred to as base oils, fixed oils, and vegetable oils even though not all of them are from vegetables. Apart from topical use these oils can also be used alongside essential oils in oil burners and as bath oils in shampoos. We supply baobab oil, moringa and avocado oil to complement our quality essential oils. Our range of massage blends is meticulously crafted to provide a rejuvenating and luxurious experience for spa-goers, hotels and wellness enthusiasts. We understand the importance of offering high quality products and services and is why we dedicate ourselves to create strong and effective massage blends.

Muscle Relief Elixer Massage Oil Blend

It's an excellent source of antioxidants, essential fatty acids, minerals, and vitamins. It moisturizes dry hands and acts as a natural sunblock.

COMING SOON

ALOE SEEDLINGS

Secundiflora

Aloe Secundiflora, a valuable aloe species indigenous to Kenya, plays a vital role in our mission to create a positive impact in the communities where we operate. We actively support women's groups by donating aloe seedlings and providing training in organic and ethical farming practices.

Once these aloe plants mature, we return to these groups to purchase the fully grown aloe plants, which serve as the base for our organic aloe product line.

By planting seedlings in arid and semi-arid regions, we not only offer the women's groups alternative sources of livelihood but also contribute to the restoration of degraded lands. Our commitment extends beyond quality products; it's about empowering communities and nurturing the environment.
